If Elected...

Being a former Secretary and Assistant Secretary, I have gained the trust of other members, particularly the administration of the association's activities. The strength and experience that I have gained over these periods are invaluable assets that are required by the Association. I will continuously reach out to all members and commit to a transparent association by ensuring that all financial information and transactions are available to members when requested.

I am a strong supporter of modernising the association by better serving its members and inviting younger members into this association. I ardently support the bolstering of our constitution to better protect both the association and its members. I will work hard with the newly elected office bearers and the executive members to build trust, which will eventually pave the path for greater involvement at large. I will continuously advocate for improvement where possible, whether that be our endeavours, or the inclusivity and ownership of activities in the subcommittees and the executive committee. Above all, I will prioritize the continued growth of our association, by training and grooming younger members for leadership positions they will one day undertake.
